Franklin, Sept. 4—3 days.
Hodgenville, Sept. 9—3 days.
Monticello, Sept. 9—4 days.
Morgantown, Sept. 11—3 days.

Take Plenty of Time to Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result in serious illness eventually unless corrected. Digestion begins first in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and are most agreeable in effect. Sold by all dealers.

SCHOOL OF METHODS.

For Sunday School Work to Be Held in Lexington.

Preparations are being made for a School of Methods for Sunday School workers to be held in Lexington, June 16-27, under the auspices of the Kentucky Christian Bible School Association. The Disciples of Christ of the State of Kentucky are looking forward to this as one of the most important religious events of the year. The railroads have granted favorable rates. Reports from over the State indicate that a large crowd will matriculate for the school which will be held for two weeks at the college of the Bible and Transylvania University. The School last year was held at Morehead, Ky.

An attractive faculty of instructors has been announced by Dean Walter E. Frazee who is arranging all details. Among the instructors and lecturers engaged this year are President E. Y. Mullins, of the Southern Baptist Theological Seminary, Louisville; Professors A. W. Fortune, W. C. Bower, S. M. Jefferson and President Crossfield of Transylvania University, Lexington; Mullins of the Southern Baptist Theological Seminary, Louisville; Professor the Christian Church, and W. J. W. J. Clarke, Louisville, Kentucky Adult Bible Class Superintendent for the year. Many Sunday Schools attract ministers and religious workers though not directly engaged in Sunday School work.

In all about sixty Lectures have been planned. Many Sunday Schools Miss Hazel A. Lewis of Cincinnati, National Elementary Superintendent for of the State will send representatives with the idea of giving their teachers and workers both pleasure and profit. The School of Methods, however, will attract ministers and religious workers, though not directly engaged in Sunday School work.

During the School there will be one half-day holiday. The preachers enrolled may organize base ball teams and pay off their exuberance in that way to the delight of all present. However, work and not play will be the principle object of the School.

Can't Keep It Secret.

The splendid work of Chamberlain's Tablets is daily becoming more widely known. No such grand remedy for stomach and liver troubles has ever been known. For sale by all dealers.

Bourbon Firm Buys Blue Grass.

Last week Mr. T. H. Shannon, of Nicholas county, sold 75 acres of very fine blue grass to Collier & Barton, of Millersburg, for \$3.70 per acre, same to be stripped by them. The seed it is said will not run more than 8 to 10 bushels per acre, as against 16 bushels last year. The 75 acres will net Mr. Shannon \$277.50.

You Will Be Pleased.

Get shoe satisfaction by trading at FELD'S.

Poultry Notes.

Orpington cocks are now the highest priced chickens on the market. Next come Blue Andalusians. Indeed, the best Andalusian male brought more than the best Orpington male at a recent sale.

Toulouse fenders can be sold for from six to fifteen dollars if he is properly bred and true to feather. On an average his is the costliest gander in the pens.

Rhode Island Reds are a comparatively new breed which sprung into favor suddenly and at once brought high prices, both for eggs and birds. This breed is not quite so fashionable now as it was at first, the Orpingtons coming in for a lion's share of the public's approbation. The Rhode Island Red lays a rich, brown egg about the size of the Plymouth egg. The breed originated on southeast coast of New England. The color is a cherry red which glistens in the sunlight.

The Pekin duck is a good layer and an excellent table fowl. It can be made to dress four pounds at ten weeks of age. It is one of the largest of the duck family. The Pekin seldom lays fewer than one hundred and twenty eggs per year.

The most admired of all turkeys is the Bronze. It is a rich bronze red, is large and hardy. The White Holland comes next in favor. For breeding purposes Bronze males bring from five to fifteen dollars; White Hobbies from five to ten dollars.

Geese are grain and grass feeders and do not require the animal food so necessary to hens. They take no milk, however, and thrive on cottage cheese.

In caponizing, choose only the larger breed of fowls. The Leghorn, for instance, is too small a bird ever to make size enough to bring capon prices.

Does it pay to keep hens? Here are some figures which we gladly quote: Last year's poultry products amounted to \$650,000,000 from 234,000,000 hens an increase of \$50,000,000 over the previous year.

Ordinary bowel trouble is not the same as white diarrhoea. The former is brought on by improper feeding, or not balanced rations; also by dirty quarters, dirty drinking fountains, water, etc. It is a disease which can be controlled. White diarrhoea is the offspring of a germ which becomes active immediately upon hatching. It is either resident in the shell before the chick is hatched, or is inherited from the mother hen. Only the very strongest chicks are able to withstand its ravages and ordinary remedies for plain diarrhoea do not appear to have any effect upon the downy birds. The experiment stations are working on it, but have not yet found any reliable cure for it. The best plan is to avoid the possibility of it through careful attention to the hen and her housings.

Facts in Nature

For centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N.Y., used the powdered extracts as well as the liquid extracts of native medicinal plants, such as Bloodroot and Queen's root, Golden Seal and Stone root, Cherry bark and Mandrake, for the cure of blood diseases. This prescription as put up in liquid form was called

DR. PIERCE'S

Golden Medical Discovery

and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain the powdered extract in sugar-coated tablet form of your medicine dealer, or send 50c in one-cent postage stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N.Y., and tablets will be mailed, postage prepaid.

The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alternative extract—as thousands have testified.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, clothbound ADDRESS DR. R. V. PIERCE, BUFFALO, N. Y.

Some Hot Nems.

The Standard Ever Since

CORTRIGHT METAL SLATE

Roofs put on twenty-six years ago are as good as new to-day, and have never needed repairs. What is the result? Why practically every other shingle manufacturer is trying to imitate it, so be not deceived—look for the words "Cortright Reg. U. S. Pat. Off." embossed on the corrugation. It is put there for your protection. Accept no substitute.
